DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 35-48, 77-85, 95-97, 104-105 and 108-111 drawn to an FCD system for collecting traveling locus data from a in-vehicle unit in vehicle via beacon, classified in class 701, subclass 117.

Group II, claim(s) 49-62, 63-76 and 86-94, drawn to An FCD system, classified in class 340 subclass 905.

Group III, claim(s) 98-103 and 106-107, drawn to an FCD collecting facility provided in plural to an objective road section, classified in class 340, subclass 933.

2. Inventions I, II and III are related as process/product and combination/ subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the details of the subcombination are not set forth in the combination. The

subcombination has an FCD system for collecting ..., the inventions are distinct and restriction is PROPER. See MPEP § 806.05(c).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. A telephone call was made to Mr. Jeffery J. Sopko, Reg., 27,676 on 03/04/2009 to request an oral election to the above restriction requirement; however Mr. Jeffery J. Sopko was not available.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to MCDIEUNEL MARC whose telephone number is (571)272-6964. The examiner can normally be reached on 6:30-5:00 Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Khoi Tran can be reached on (571) 272-6919. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
